WHICH GLASS BOARD IS RIGHT FOR YOU?

What to consider when choosing a glass board: size, shape, type of surface, frame style, and price points.

INFINITY™ GLASS

A standard style glass board that mounts on your wall vertically or horizontally

YOU CHOOSE:

- The glass colour: magnetic white, magnetic black or frosted
- Customizable, or not customizable
- Sizes from 8.5" x 11" to 96" x 48"

IDEAL FOR:

- Office, education, healthcare settings, or at home use and private offices.

BRILLIANCE GLASS

A high-contrast, bright white magnetic glass board that may be vertically or horizontally mounted

YOU CHOOSE:

- The size: from 24" x 18" to 96" x 48"
- Also available in an exclusive 48" x 48" square size

IDEAL FOR:

- Office or at home use
- Anyone who wants a vivid white surface

INVISAMOUNT™ GLASS

Created for long-term heavy use, this wide-format magnetic glass board has invisible mounting hardware giving you an uninterrupted surface from edge to edge. It appears to float on your wall

YOU CHOOSE:

- The glass colour: black or white
- The size: from 39" x 22" up to 85" x 48"

IDEAL FOR:

- Executive office and conference rooms
- Healthcare settings due to edge-to-edge surface and no standoffs
- Anyone whose aesthetic is sleek and modern

All Quartet Glass Boards have this in common:

Durable, tempered, non-absorbent glass surfaces that won't stain or ghost and resists scratches and dents

So...Which Board is Right for You?

Armed with more information, you can choose the glass surface which is right for your needs.

POWER YOUR PROFITABILITY

TURN BATTERIES FROM A COST CENTER INTO A COST SAVER

By conducting intensive device testing and analysis in our labs, Procell has discovered that a way to dramatically extend alkaline battery life and cut replacement costs is to engineer device-specific industrial alkaline batteries, each with unique power profiles.

THE WORLD'S FIRST DUAL PORTFOLIO OF PROFESSIONAL BATTERIES

PROCELL INTENSE POWER

- Specifically engineered to deliver precise pulses of energy while lasting longer in high-drain professional devices*

PROCELL GENERAL PURPOSE

- Completely redesigned for longer lasting*, consistent performance

By selecting the right battery to match the power needs of your commercial device, you can make all your batteries last longer*, so you replace them less often.

DON'T UNDERESTIMATE THE POWER OF A GREAT OFFICE COFFEE

Coffee—caffeinated goodness that can make or break an employee's day. And, great coffee is a valuable office perk that shows you care about your staff's well-being.

That's why we're proud to offer revolutionary brewing technologies along with an incredibly wide variety of K-Cup® blends and brands to please discerning palates.

Furthermore, now that all our pods in Canada are recyclable, we've also introduced K-Cycle™, a simple, commercial program aimed at helping companies consolidate pods for easy recycling.

At Keurig®, we create the ultimate beverage experience in every life we touch from source to cup.

Air Care — air purifiers and humidifiers

A FELLOWES® AIR PURIFIERS WITH AERASMA™ SENSORS

AeraSmart™ Sensor monitors the air quality and automatically adjusts the fan speed to keep your air purified. True HEPA filter with AeraSafe™ antimicrobial treatment safely removes 99.97% of airborne particles as small as 0.3 microns, including pollen, ragweed and other allergens, viruses, germs, dust mites, mold spores and cigarette smoke. Ultra quiet operation. Filter Change Indicators let you know when it is time to replace your Carbon or True HEPA filter.

OfficestoGo

OFFICESTOGO.COM

Featuring an adjustable headrest and a comfortable clean design, Format™ is the go-to chair for work and home offices. There's more than meets the eye; hidden within the chair's sleek profile, Format is designed and tested to provide ergonomic support at commercial quality, and a great price.

Office Chair Buying Guide

Multi-Tilter

The most ergonomic choice. Seat and back can be adjusted independently. Tilt tension and height adjustment are standard. Typically has many more adjustable features.

Synchro-Tilter

Like the Multi, but fewer paddle adjusters. Seat and back synchronize at a 2:1 ratio. If back reclines 30°, seat tilts forward 15° to reduce thigh stress.

Tilter

Tilter chairs are a popular choice for management and meeting rooms. The chair tilt lock allows you to lock your chair in a comfortable and supportive position.

XL

These chairs are created for heavy-duty use. They are perfect for areas in shift rotation or for extended use. Reinforced for added strength, they have a double-clutch system and use high-density foam.

Customize your chair with our wide range of fabrics. See the selection on pages 546-547

Task

Non-tilting chairs ideal for short-duration workstations. Perfect for the home office, warehouse other areas where the user sits for a short period of time. They typically come with seat and back height adjustment.

A GLOBAL® OBUSFORME COMFORT XL™ CHAIRS

Designed to accommodate the big and tall user. The high quality Soft Descent™ pneumatic lift will support users from 225 to 400 pounds. Allows you to adjust the space between the arms from 22" to 26" apart. Tall users will benefit from the added seat depth (an extra 1.5" deeper than standard), the 2.5" seat slider adjustment and the extra tall 53" ratchet style back with no pressure points along the spine. The torque requirement automatically changes for each user, without the need for any manual adjustment.

Chairs – ergonomic features

A – TENSION ADJUSTMENT

Increase or decrease to match body weight. Allows you to rock comfortably, without heavy pushing, reducing muscle fatigue.

B – CHAIR TILT LOCK

Lock the tilt movement in one or more position(s) to accommodate your working posture. Allows you to lock your chair in a comfortable and supportive position (either single position or infinite style).

C – SEAT HEIGHT

Raise or lower to allow your feet to rest flat on the floor. Avoids pressure under your thighs, easing blood flow.

D – BACK/LUMBAR HEIGHT

Raise or lower to position lumbar support in your lumbar area. Reduces likelihood of back pain.

E – SEAT DEPTH

Change the depth of the seat to accommodate the length of your thighs. Keeps your back in contact with the backrest while avoiding pressure behind your knees.

F – SEAT ANGLE ADJUSTMENT

Forward and/or rearward. Allows seat to tilt forward, changing the angle of your thighs in relation to the floor. Helps reduce disc pressure during forward leaning tasks.

G – BACK ANGLE

Adjust to change the angle of your torso in relation to your thighs. Helps reduce disc pressure and relaxes your back muscles.

H – ARM HEIGHT

Raise or lower to support your forearms. Reduces muscular effort in neck and shoulders, minimizing risk of pain.

I – ARM ANGLE

Tilt to support your forearms in various positions. Reduces muscular effort in neck and shoulders, minimizing risk of pain.

J – KNEE-TILT MOVEMENT

Chair tilts from a pivot point at the front of the seat, keeping your feet on the floor as you rock. Maintains stability while enhancing blood flow.

L – SYNCHRO-TILT MOVEMENT

Backrest reclines at a faster rate than the seat, increasing the angle between your torso and thighs. Enhances comfort and encourages dynamic body movement.

M – WATERFALL SEAT EDGE

Reduces pressure at the back of your knees, contributing to good blood flow.

N – PROPERLY CONTOURED CUSHIONS

Support the body, effectively, allowing you to sit longer without discomfort.

P – VIBRATING BACK / SEAT

Soothing effect contributes to your relaxation during work breaks.

Q – WIDTH ADJUSTABLE ARMS

Allows outward movement of armrests to match shoulder breadth. Ensures armrests properly support forearms, reducing muscular effort in neck and shoulders.

R – ARM ROTATION

Rotate armcaps to support your forearms in various positions. Reduces muscular effort in neck and shoulders, minimizing risk of pain.

S – CENTRE-TILT MOVEMENT

Chair tilts from a pivot point under the centre of the seat, allowing you to rock. When your feet are well supported, blood flow is enhanced.

T – PUSH BUTTON

Push to activate control. Location within view, increases likelihood of making an adjustment. Promotes good posture as you move to various positions.

U – SOFT DESCENT PNEUMATIC LIFT

Gently and gradually lowering the seat helps you easily select proper seat height without causing a jerking motion.

V – LUMBAR DEPTH ADJUSTMENT

Increase or decrease curvature of the back to match the profile of your lower back. Enhances comfort and support in the lower lumbar area.
